

Compact Laminate is our minimum standard

RESCO VANITIES

Resco nz ltd specialises in the design and manufacture of Compact Laminate propriety cubicle systems and related products based on the latest Compact laminate panel technology

SPECIFICATIONS

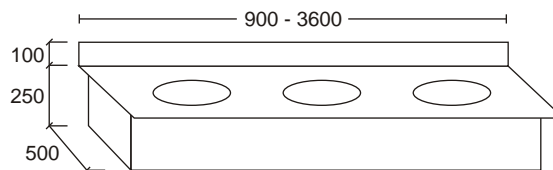

- Pre-finished Compact laminate vanity top, up-stand and skirt
- **Maica range** of colours and decors. Other colour options available on request.
- 1800 mm long x 500 mm deep benchtop with **Single lever basin mixer(s)**
- Under bench mounted 300 mm diameter x 120 mm deep **Stainless steel Mercer G-9 sinks**
- Galvanised support brackets

FEATURES

- Suitable for high and low pressure water supply systems in **high use and wet areas**
- **Under bench mounted sink** provides a smooth and unobstructed bench surface for hygenic and easy cleaning
- The 250 mm skirt below the benchtops is designed to hide the S-bend, pipes and brackets
- The vanity benchtops are **CNC machined** to provide half-rounded edging

BENEFITS

- **Cost-effective, easy to install, pre-assembled units** are ready for plumber to connect (support brackets are included)
- Compact laminate benchtop technology provides an extended product life - **10 year Guarantee on panel integrity**
- Dirt traps have been minimised through design, allowing for easier, efficient and cost-effective cleaning
